

**busradar.com**  
All long distance buses at a glance

The search engine **busradar.com** (or *busliniensuche.de* in German) is the leading website for intercity bus tickets in Europe. Over one million people throughout Europe use our website and apps every month.

We are currently offering a position for a

## Frontend-Developer (m/f)

### Your role

- Further develop the website, our CMS and the admin area
- Develop new exciting features
- Measure & improve performance

### Your profile

- You want to become part of the leading European website for intercity busses
- You are experienced in web development HTML, JS and CSS
- You have already done your own projects or worked as a freelancer
- You have some experience in AngularJS, VueJS or other popular JS frameworks
- You have some experience in ASP.NET MVC and C# (preferably)
- You have some experience in Responsive Design (preferably)
- You are open for new languages & frameworks

### What we offer

- A dynamic start-up culture, flat hierarchy & flexibility in working hours
- An international team from all over Europe
- A positive working environment with free drinks etc.
- An awesome office in the centre of Karlsruhe.
- A fair salary & some support to get settled if you are from abroad.

Send us a short, informal application with a few words about you and your background:
